

# Just to Let you Know...

In Maths this week, we have begun working on adding prices up, using money and working out how to give change, whilst working out two-step problem solving!

Have a go on the 'my maths' website to keep practising your maths skills. Select level 3 or 4, number, money and finance, introducing money.

**login: pewley**

**password: squared**

Also, please remember to complete the addition and subtraction word problem task that we have set as homework, on Mathletics.

**Have a great weekend!**

**Best wishes,**

**Julia, Sheila and Jess.**

## Upcoming event:

**Tuesday 16th December:**

Materials Exhibition at 2pm.

## Please note:

There will be no Group Reading on Friday 19th December.

## Over by Christmas?

We really hope you enjoyed the Christmas production as much as we have. The children have been fantastic and we are, as ever, immensely proud of them all!

## Science

We have been carrying out an investigation into which materials dissolve in water. We tried to make solutions using flour, oil, sugar, salt and sand. Afterwards, the children discussed what happened to the particles in the mixture to draw conclusions and also thought about recommendations for future investigations.

## English

This week we have been designing brochures for our Crazy Inventions! We have included our instructions for use and a persuasive paragraph or two detailing the key features of their innovations.
