

Just to let you know

2nd—6th July
2012

REMINDERS

What a fantastic afternoon we have had at the Yvonne Arnaud - we hope your children have enjoyed it as much as we did.

Next week is our Curriculum Week, including Sports day on Tuesday 10th at 1pm and we have all sorts of exciting activities planned around the Olympic theme.

Come and see what we have been doing at our Celebration Evening on Monday 16th July 4-5.30pm
HEADS UP! You may have heard that we have **HEAD LICE** in YR3, please check your child's hair and treat accordingly. Tea Tree conditioner and a nit comb usually does the trick!

Weekly Spelling Focus

This week we have looked at 'igh' words and we tested them on Friday. See if your child can still remember them over the weekend.....

light, night, tonight, might,
right, bright, frighten,
frightened, fight, high, sight,
might

Curriculum

In Maths this week, we have concentrated on Fractions and Decimals. The children are all working at their own level on this. We have investigated reciprocal fractions and have noticed the relationship between decimals and money. Tables are so important to practise, how about using a long car journey or the walk to school to improve their speed of recall? There are a plethora of great multiplication tables websites on the internet, that really appeal to the children.

We are doing well collating our Topic Books and look forward to showing them off to you at Celebration Evening
