

Challenge Corner!

Have a go at doubling numbers— start at 1how far can you go ?

Play 'Double it'

Place some number cards face down and take it in turns to turn a card over and double it. Keep the card if you get it right !

REMINDER

Christmas Play

You should know by now what part your child is playing and the costume bits and pieces (if any) they need from home. Thank you for your help with this.

This week...

The children really enjoyed taking part in a workshop run by the theatre group 'Perform.' It was a great way for them to develop their acting/movement skills in preparation for our Christmas play, which we have begun to rehearse by learning some of the songs and knowing our stage positions. Following our wonderful visit to St Paul's last Friday, the children have been making their own information booklets. They have been using all their sentence skills and including descriptive phrases.

Phonics / Spellings!

This week's sound family is 'oi' Look out for your child's phonics book in their bag. There are some suggested activities in the front cover.

Maths corner

We have been playing the 'exchange' game with the Diennes apparatus...The children work with a partner and take it turns to throw a dice and keep adding/ subtracting until they need to exchange 10 units for a ten. This helps to reinforce our work on place value/ addition and subtraction.
