

YEAR 2 NEWS

Natural History Museum

We are very excited about our trip on Tuesday 9th June. Your child will be bringing home a letter on Friday (please check book bags).

Friday 15th May 2015

Maths

We have been revisiting the topic of Time and the children enjoyed a Maths trail in the school grounds solving word problems related to time. We have been practising other maths skills such as doubling, halving, finding money totals and mixed operation number calculations.

<http://www.ictgames.com/numberFacts> is a great website to use to reinforce what we have been doing in class, particularly the game **Number Bingo**.

Topic

The children have been finding out about food chains and enjoyed devising their own with a partner. They loved this activity, we had some interesting discussions and they picked up some new scientific vocabulary.

English

This week we have been honing our reading comprehension skills.

We looked at different ways in which a text can be presented and practised retrieving information and inferring from the writing.

Challenge corner

Can you make up some questions about the book you are reading and ask the person you read to, to answer them!
