

Curriculum News:

English: Super character descriptions have been produced by your children this week. We had a great laugh on Tuesday as our teachers dressed up as some characters we might find in the aftermath of a volcanic eruption.

Maths: The focus this week has been taking away as a form of subtraction. We have used number lines to develop this concept with some children moving on towards more formal written methods.

Science: How sound travels through different mediums was the focus of our science this week. We experimented with hearing through solids, liquids and air.

Art: This week in art we used our skills of observation to make a reproduction of a picture of a volcano. We used a grid to help us copy to scale.

Spellings:

Heart

Hart

Height

Experiment

Tone

Christmas

Gospels

Eruptions

Reminders:

Match 'Attax': Whilst we are happy for children to have these cards in school and play with them at break time, some issues are arising with cards going missing. We have advised the children that they should keep the cards in their trays and only be taken out during lunch and break times. Obviously children have to realise that they bring their cards in at their own risk.

Christmas Play: These will be taking place in the week of the 1st December, please see the newsletter for when each house is performing and how to obtain tickets. The costume for the year 3 children is black leggings/joggers and t-shirts. Where possible can girls have their hair in ribbons and boys have their hair combed neatly to try to give an impression of the period.
