

# JTLYK Reception

## Friday 3rd May 2019

### PHONICS

This week we have learned our final phonic sounds:

**ear air ure**

You will find these in the back of the jtlyk books.

Next week, most children will be moving on to phase 4 phonics where we will be word building whilst writing eg ten-tent, ben-bend. We will introduce adjacent consonant sounds such as st, sp, rt. Look out for more information next week!

### Wild Place

Thank you so much to our lovely Class Reps and to the parents who signed up to help us this week!

Please sign up to help next week!

Dear Parents

What a busy week we have had!

In maths we have been investigating the concept of halving by sharing objects to understand how to halve numbers. The children have used our space theme to work out how to make sure there are equal numbers of astronauts on board ships bound for Mars **and** the Moon!

We have really enjoyed reading the 'Whatever Next' story and are spending time to really learn the actions so that we can retell and write the story in our own words, using story language.

You should have received a trip letter in book bags this week. If you have not, please let us know asap and there are spares pinned to the noticeboard outside Willow Class.

Do you have any children's story books related to space/planets/aliens?? We would love to borrow them for story time. The children now vote each day for their preferred story to be read to them by placing named Duplo blocks on top of each other and seeing which tower is the tallest!

Enjoy the long weekend and see you on Tuesday!

The Reception Team :))
