

Year Two Walnut & Chestnut 8.2.19

Maths

This week we have recapping addition and subtraction and really trying to remember to look at the sign carefully. We have also thought about how we can use our knowledge of addition and subtraction to check if our answers seem plausible.

PE fun

On Thursday, half of Year 2 visited Spectrum to take part in lots of sporting activities. Thank you to the parents who were able to help with this event. Those still at school were super active whilst completing an obstacle course on the bikes and scooters.

Fluffy Friday

We are all looking forward to Fluffy Friday on the 15th. Please remember your £1 and that the children can wear their own home clothes.

Amazing Arctic animals

We continued our learning relating to Arctic animals this week and thought about how they have adapted to suit their environment. We compared polar bears to camels to see how they have adapted to such extreme conditions.

International visitors

We had a wonderful visit from lots of international students this week who came to tell us all about their home countries. We even collected stickers from each country for our passports and played games from the various countries.

Curriculum Week

26th Feb — 1st March

During this week the children will be taking part in different activities in their houses relating to the school values. Since the children will spend the week in their houses, they will come into school in their PE kit (Tuesday-Friday). On Monday 25th (normal clothes) we will settle the children back into school and hear all about what they've been up to over the holidays.
