

Just to let you know...

Maths

In maths, we have been focusing on reading timetables and graphs. We have talked to the children about the everyday uses of timetables and discussed their importance. The children have been calculating journey times and considering fastest routes. Perhaps you could ask your child to plan a journey on some form of public transport.

Literacy and Topic Work

This week the children have been finding information out about town planning. They have thought about suitable places to build on, and how to do all that is possible to encourage a sustainable response to the housing crisis.

We all had an interesting time at Millmead House where we listen to a presentation about the Guildford Plan. The children then enjoyed responding to this themselves in the Council Chamber.

Spellings
accommodate
accompany
according
achieve
environmentalist
campaigners
sprawl
precedent
sustainability
government

Homework

Children have brought home a sheet on complex sentences where they will need to identify the independent (main) clause. They have then been asked to write a paragraph ensuring that they have included a good range of complex sentences.

Help needed Thursday 23rd June

We will be going into Guildford armed with questionnaires to help us with our Guildford Plan Project. If you are able to help us please speak to your child's class teacher.
