

# Just to let you know...

What a lovely week it's been!  
We had a great time outside gardening with some University volunteers on Wednesday afternoon. We look forward to seeing the flowers grow. We also loved meeting all the different animals that Graham brought in to show us. See the website home page for more pictures...

## Cooking Corner

# Tomato ladybirds

## Reception Hazel & Willow

Maths  
In maths we are going to introduce the idea of doubling and halving. This will be very practical and visual using fingers and objects to help the children understand what the terms mean.

Phonics  
This week we are going to be continuing to revise our digraphs and key words. We are also going to be thinking about syllables and the rhythms of words. Thank you to those who brought in lovely key word pieces of writing from home to show!
