

# Reception JTLYK

## Hazel & Willow

### This Week

The caterpillars are still tucked up in their cocoons. Ben McGee in Willow Class kindly brought in some butterflies from a kit that he had looked after at home. The cocoons will be kept safe over the holidays so maybe we will have some butterflies to look at after the break. We hope to release them together in the playground.

ZooBob came to visit  
(he got held up in his space ship last week.)

The children had a lovely time telling ZooBob all the things they had learnt about minibeasts.

The children have also been busy writing all the information down so ZooBob can take it all with him to Mars.

### Online word games for a rainy day

**Read words and match to pictures.**

**Choose phase 2 or 3 words:**

<http://www.phonicsplay.co.uk/PictureMatch.html>

**Shuffle and play around with words to make new sentences:**

<http://www.phonicsplay.co.uk/SentSubPhase3.html>

**Practise CVC words:**

<http://www.bbc.co.uk/schools/wordsandpictures/cvc/whirl/game.shtml>

**Practise key words:**

<http://www.ictgames.com/dinosaurwordsrepeat.html>

### **Other ideas**

If you would like to, you could practise writing and spelling tricky words from your key word books or practise joining letters from the phase 3 sound mat.

**We hope you all have a lovely half term!**  
**See you again on**  
**Monday 2nd June**

Caterpillars turn into butterflies. They spin a cocoon.

Butterflies like flowers and have wings.

A cocoon is an oval shape.

We have cocoons and the butterflies will make a tiny hole and come out.

Ladybirds can fly with their wings. They are tiny with spots.

Minibeasts are tiny creatures. You find them in soil in the garden or a wood.

Beetles are a kind of bug and they have 6 legs.

Snails move with slime and they live in a shell.
