

CURRICULUM NEWS

Maths

This week in Maths we have been revising subtraction and consolidating our understanding of number lines. We have also been looking at word problems and using the inverse operations to check answers.

Literacy

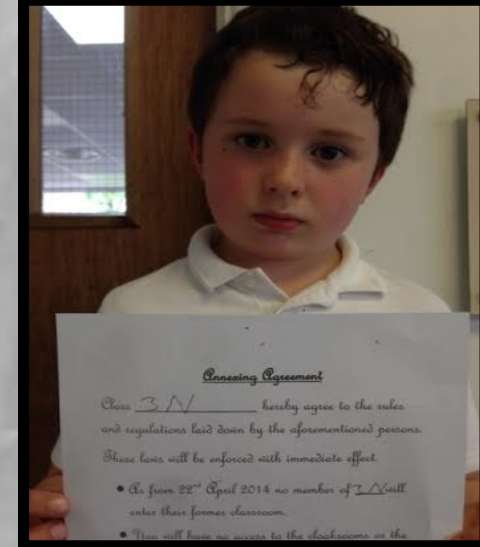

The children had a big shock on Tuesday. They came in from Lunch to find that they Year 6 children had annexed their classrooms. The Year 3's were informed that they were no longer allowed in their room and that they had to sign an agreement agreeing to all the new rules set out by the older children. Since then we have been writing a chronological recount of this terrible event.

Reminders and Notices

3N are swimming this term so remember your kit on Wednesdays!

Next Thursday we are meeting at London Road station at 9:15am in our evacuee clothes. Please can you collect your child from the hall on this day.

JUST TO LET YOU KNOW

William looking very sad after the Year 6 children annexed his classroom.

Topic News

Our topic this term is WW2. The children have been learning about the geography of the war and have created a timeline of the main events. In science we have started looking at our body and the names of the bones.
