

## Eco Team Meeting Tuesday 12<sup>th</sup> November 2019

Eco Team discussed:

### **Snack sale**

Going Well – need to decide what to buy for the school/grounds with profit raised.

### **Big Battery count**

Going well - Counted batteries and collection made.

### **Eco Responsibilities**

After last meeting regarding litter picking Eco Team noticed that less litter was generated so grounds were much tidier. Groups of children had been litter picking at break and lunch time.

### **Food waste recycling**

This has been investigated and the school is unable to recycle food waste from lunch as it is too expensive. Children have been reminded to only take what they are going to eat and teachers have been reminded to complete lunch lists so the kitchen does not prepare too much food.

### **Y4 Pen recycling**

Y4 have been busy recycling pens. They always test pens to see if they work – some have made their way back into the drawer!

### **Eco Suggestions**

A box for sensible eco suggestions will be put on the board during half term.

ECOSIA web browser – can we have this instead of Google? Alison will check with Clare Brunet.

Art competition – painting/drawing/sketch of the perfect tree – real or imaginary – winner gets to plant a real tree in the school grounds.
