

CURRICULUM NEWS

Maths

The children had a great start to the week in maths. We revisited the grid method for multiplication. It was really successful, with all children understanding how to multiply a 2-digit number by a 1-digit number. Many children were able to manipulate larger numbers.

Literacy

The topic was off to a great start with the children designing their own flat evacuee. They then analysed the features of an informal letter and wrote their own letter to send with their evacuee. Thank you very much for sending in the addresses, we are all eager to find out about what our evacuees get up to on their trips.

Reminders and Notices

3J are swimming this term so please remember your kit on Wednesdays!

On Tuesday 21st April at 7pm there will be a Parent's Information Evening in the Chapel, where we will go through all of the trips and topic related activities we will be doing this term. We will also give you information about the sleepover.
