

JTLYK YEAR ONE

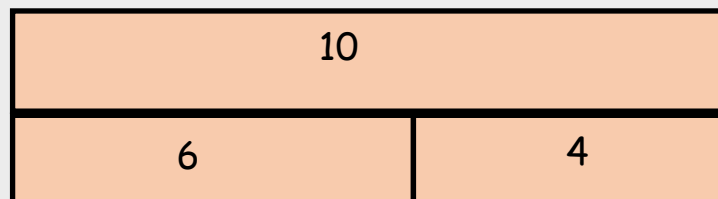

Friday 22nd April 2016

Wild Place Helpers!

Please sign up if you are able to help us on Tuesday afternoons. We need 3 adult volunteers per class each week!

Maths Corner

This week we have been learning more number bonds up to 10 and to 20 using the 'bar' method. This is a great way of helping the children visualise the parts of a number. Ask your child to show you what they know about making 10 using this method.

Dear Parents

We have had a lovely time this week with our 'Gardener George' challenges! We watched our cress grow with and without water and light and discovered that nice green cress does need both! This week we have planted dwarf bean plants (we don't want any unwelcome giants!) in our very own pots and are learning to tend them to help them grow... We are keeping a 'Bean Diary' on their growing progress. Keeping with the bean theme, this week the children learned to write the story of 'Jack and the Beanstalk' in sequence.

Thank you for continuing to do the **Sound of the Week** activities that support the hard work in school! It really does make a difference.

The children have really enjoyed their 'Run to Rio' this week and those miles are mounting up!

Have a great weekend!

Sarah and Sheena :))
