

Topic fun

This week we have loved performing our nativity play. We have sung and acted and done our very best and our teachers and our parents are really proud! It was fun to do something different and performing outside and in the dark was exciting and a little bit magical. Iris cooked us a yummy Christmas lunch, and in the middle of all that we have still found time to do stable maths and have a lovely thoughtful time—check out the pictures on the website.

Spellings ...

Learn to spell Christmas, Jesus, stable, donkey. Star, angel, shepherd and king! It will stand you in good stead for the rest of your school life!

For a real challenge learn to spell Bethlehem and Jerusalem!

Maths

Well done to everyone who has managed to log in and have a go at Mathletics. We have been having a go at school as well and getting very excited. We can win easily on level 1, but on level 2 we keep coming second..... Get some practise in at home! If you haven't had a chance to log in yet, the details are stuck into the front of the children's home and school books.

We had fun solving problems about the stable. We were told how many legs, heads, tails and wings there were, and it was our job to work out who was in the stable.

Google "light the Christmas tree game" for a fun puzzle to solve.....

Writing corner

Write and decorate your own Christmas recipe! It could be an old family favourite, a traditional Christmas recipe or a magical made up recipe of your own. If you do them carefully they make lovely presents.....

Things to remember

A MASSIVE thank you for all your support this week with our nativity play. We know that it can be difficult to juggle when children need to be dropped and collected at different times, so we really appreciate all the effort people made to get their children to the afternoon performances.

There has been a lovely atmosphere surrounding the play this year, with the whole school pulling together. The children have all loved the singing especially, and it has been lovely to watch the year 2 children take responsibility and take care of the little ones—the message of Christmas in action all over the school.

I'm bored box

Dress up and make a Christmas play. Involve your toys, brothers and sisters or any visiting cousins! You could make props, programs and even sell tickets!
