

Oak and Beech Class  
Friday 6th February 2015

Maths Corner

As well as some number work this week we have also been revisiting 2d and 3d shape. At home can you describe an every day object using the vocabulary:

2d: side and corner, straight and curved.

3d: edge, face, corner, straight, curved, flat.

Dear Parents

Wow! It's been Art Week and the children have been very busy learning new techniques to create their exhibits using paint brushes, collage, print, pastel and crayon rubbing. The children took their inspiration from the story of 'The Three Pigs' and we hope you were as impressed as we were! We have also been acting out the beginning and middle of a story and the children had to vote on a new ending. We were divided between two endings—the wolf staying for tea or getting stuck in the chimney for ever!

Emily and Sheena :))

Sound of the Week

Please continue to do the activities each week, they really help your child to learn and apply their phonics skills.
