

Maths

This week we have been looking at multiplication, using arrays and 'groups of', with numbers up to 10. We have practised looking at multiplication word problems, and working out what the maths is saying. e.g. **Words:** *Three children eat 4 bananas each. How many do they eat altogether?* **Maths:** $3 \times 4 = 12$

This link helps to practise using arrays.

Year 2 News

- Remember Friday 10th February is **FLUFFY Friday**. If you have not yet returned the choices, please do so on Monday morning.
- **International Afternoon**—On Wednesday afternoon we are welcoming some International visitors, sharing activities, games, songs etc. from their home countries.
- **Book Week**—The first week back after half term (beginning Tuesday 21st February) will be book week. Children will be asked to bring a favourite book on Friday 24th February.

English, History and Geography

The children have been hearing about the 'Race to the Pole' They heard about the lives Scott and Amundsen their different expeditions to the South Pole. We looked at pictures from 1911 & discussed our thoughts about the characteristics of each man and his team. We have written our own accounts of the journey, and thought about what makes a successful adventure.

Sharing stories from the Bible with Year 5 Buddies.

Bedtime Stories

is on Tuesday 7th February from 5:15pm until 6pm.

Children can come in pyjamas and bring a soft toy with them.
