

Just to let you know...

Year One: Beech and Oak 11.1.13

Sound of the Week

This week the children have been learning about the very exciting 'magic e'. We have learnt how to make 'a' say its name by adding an 'e' e.g. cake, bake, lake. Please have a go at the activities in your 'Sound of the week' book if you can and bring them back to school on Monday.

Calling all P.E. Kits!

Some of your lovely P.E. kits have not returned to school yet. Please send them back as soon as possible as we are busy doing P.E. again on Tuesdays and Wednesday.
Thank you

Dear Parents, Welcome to the Spring Term!

This week has been really lovely as we have welcomed back your children with smiley faces and lots of enthusiasm.

We have had a great time sharing fairy tales, making up stories, playing 'Hot Seat' drama games and of course dressing up! Thank you so much for helping your children with their wonderful costumes. You will be pleased to hear that maths has been a bit hit this week too. We really do enjoy exploring numbers and taking part in fun challenges. Next week will be packed with more fairy tale fun and a challenge from Year 4!

Love Hannah, Emily, Sam and Misha :)

Thank you.

Thank you very much for all the lovely, generous gifts that you gave to us all at Christmas. We were very touched and we feel very spoilt!

Hannah, Emily, Misha, Sam, Susanna,
Bridgit, Nicola and Emma x

Maths Focus

This week the children are starting to learn about place value or 'Exploding numbers'. We will be exploring 2 digit numbers and talking about tens and units. E.g. 14 is 1 ten and 4 units. Why not try exploding some numbers at home and find out how many tens are units there are in your door number, your age, your favourite number etc.

Do let us know how you get on. We love to hear about the fun that you have with maths at home.
