

### Topic Fun

We have enjoyed reading 'Where the Wild Things Are' by Maurice Sendak this week. We have painted our own 'wild things', had monster mug shots taken and been kings/queens of our own kingdom. We have worked hard writing monster descriptions, thinking about adjectives, noun phrases and characteristics.

### MATHS

This week we have been looking at numbers that are more than 100. We have started to learn about 3 digit numbers being Hundreds, Tens and Units. Practise at home making 3 digit numbers and put them into a table like this. 173

H	T	U
1	7	3

### Things to Remember

FYI the children will need to come dressed as Antarctic Explorers week beginning 27th January. More next week!

On Monday the children will come to school to start our Antarctic adventure aboard an Ice Breaker! We will be working OUTSIDE for many lessons so please make sure your child has named, all weather, gear at school including wellies.

We still need black wool for our art carousel– thank you!

### Wild Place

Please sign up to help this term asap, we need volunteers so that we can go!

### I'm bored box !

Pretend that your bed is a boat and make a den to live in on your very own island. When you are there make up your own Wild Things adventure!

### Writing Corner

Find a picture from a book, magazine or the internet of a real or imaginary animal.

Try to use pairs of describing words to write a description eg. The kitten has soft white fur. It's claws are small, pointed and sharp.
