Just to let you know...

Spellings of the week:

value	vegetable
visit	visible
given	stricken
invent	choking
kept	
kerb	presentation
taken	translucent
work	circuit

Dear Parents,

On Tuesday 4th March (time to be confirmed, but most likely from 11am, in Guildford High Street), a selection of Year 4 pupils will be taking part in the Guildford pancake race. This takes place on the high street and is a great event to watch. If you would like to help us walk down to the town and watch the race, then please can you let your child's class teacher know.

Have a great weekend!

In English this week we have been continuing our focus on story writing, beginning the week by looking at good endings and how to keep the reader engaged for ALL of your story. Pupils used all of their skills and knowledge of story writing to produce their own adventure story. Why not ask your child about this to find out what happened?!

Homework: Pupils need to complete the tenses homework in their Reading Journals, changing verbs from the present to the past tense.
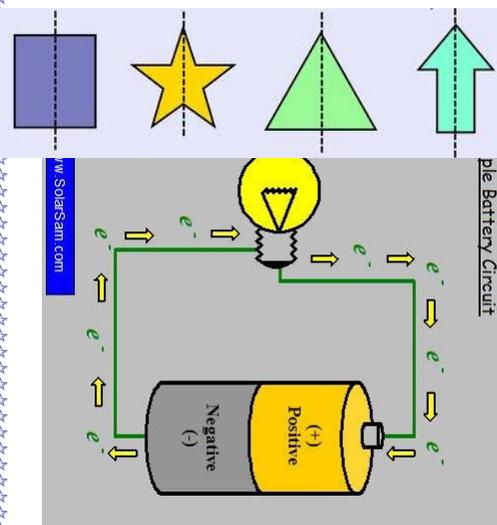

Resources Request:
Please can you send in any spare materials that you may have e.g. sponge, rubber, fabric, plastic, tin foil, cotton wool, newspaper, card and jam jars. Thank you!

It has been another busy week in Year 4 with lots of learning, discovering and fun! The children have had an introduction to electricity, focusing on making electrical circuits and how they are presented as a scientific symbol. Ask your children if they can explain how to make a light bulb light up using a battery, two wires and a bulb.

Have a look at this website for some interesting activities.

In Maths this week we have been learning about how to measure and draw angles using a protractor. The children have been applying this knowledge to work out missing angles in a triangle.

Year 4 have also been learning about lines of symmetry in 2D shapes. Following on from this, pupils have been finding out how to reflect a shape in a given mirror line.
