

Just to let you know...

- We had a fantastic visit to INTECH and were particularly wowed by the Planetarium; the children learnt about the constellations and should be able to point some out to you if you have a look at the night sky.
- Music Medley House performances are in House assembly on Tuesday 28th January; please encourage your child to take part if they can play an instrument or sing!
- We are looking for parents who can help with our Reading Partners program on a Wednesday afternoon. If you would like more information and are able to help, please email Tina Metcalf at: tinam@holyltrinity.surrey.sch.uk.

Many thanks,
Henry, Alison, Heather and Claudine

In topic this week the children have been researching planets, night and day and the seasons in order to teach reception children. They may need to think about finding and preparing resources they will be using when teaching year R.

During English lessons this week, we have been using our research skills to learn about our home group's planet. We then looked at the features of informal writing and wrote postcards from the planet we'd found out about. The results were very amusing!

The children have also been continuing to edit their Creation Stories.

In maths this week, we have been looking at negative numbers and difference in temperatures. If you'd like to have a look at this at home a great website to visit is:

www.teacherled.com/resources/eurotemps/eurotempsload.html

Spellings this week are the planets and the dwarf planets.
