

## Things to Remember!

Please remember that children need wellies/ spare outdoor shoes at school at all times. Please make sure that these are the right size.

Please look out for a letter next week. We would like the children to come dressed up as Antarctic explorers on Tuesday 2nd Feb and for the rest of that week.

## Year 2 JTLYK

### Topic Fun

We have continued our Geography work on maps. They should be able to show you where the different continents are on a map. We have learnt how to show this on a blank world map.

Friday 22nd January 2016

## English

This week we have been practicing comprehension, by answering questions about Max's adventure with the 'Wild Things.' We answered in full sentences and had to give reasons for our answers.

We also talked about what makes a good adventure and planned and wrote a new adventure story for Max. We wrote to invite Max on our adventures.

## Phonics & Spelling

This term we are focussing mainly on spelling and spelling patterns. Please keep up the brilliant work in the Green Books. We will be informally checking how children are getting on with this, so please let us know if you have any difficulties or need any ideas! Please make sure green phonics books come back to school every week on Wednesday.

## Maths

We are practising our number facts so that we can say what is 10 more or 10 less than any number. Use this Splat Hundred Square to help you child find 10 more or 10 less than a given number.

<http://www.oswego.org/ocsd-web/games/SplatSquares/splatsq100.html>

Look carefully at which digit changes when you add 10, or take away 10.

We have been making totals with coins. Can you help your child to make totals up to £1 using 1p, 2p, 5p, 10p and 20p coins.
