

# Just to let You Know

## Maths

This week we have been working out what the missing number would be in a number sentence. Eg  $14 + ? = 24$  using a number line. After half term we will be learning more about 3 d shape. Please look out for real life examples of cuboids, cubes, pyramids, cones, spheres and cylinders.

## Jubilee Celebrations!

Thank you for making so many cakes! The children had great fun decorating them for you to enjoy at the coffee morning. We enjoyed taking part in a red white and blue scavenger hunt, made a flotilla of boats and created commemorative paper plates!

## Literacy

The children have written dragon adventure stories this week. After half term we will be basing our Literacy on the lovely things we see and do at Painshill Park. We hope to write poems and make a booklet about our visit.

## Wild Place

- We won't be going on 11<sup>th</sup> June because of our visit to Painshill Park on 12<sup>th</sup> June.
- A plea for plants please! - If you have any spare bedding plants, compost or unusual planters we would be very grateful as we are hoping to make the playground and Year 1 area very colourful.

## Sound of The Week

This is 'ue' as in argue, clue, blue, glue, rescue, tissue, true See if your child can write the same sound a different way. Look out for different words with the 'ue' sound. During half term please see if your child can read all the sounds in his/her Sound of the Week book.
