

Friday 28th March 2014

Writing Corner

The children have enjoyed some lovely African stories this week and have retold 'Handa's Surprise' using time connectives. We also had a go at some comprehension questions from the touching story 'The Hunter' by Paul Gerarty. We learned that it is important to use words from the text in our answers.

Maths

This week we have been learning number sequences by looking for the different intervals. We have also had lots of fun investigating how \div is the opposite of \times . Use only these numbers to write 2 number sentences containing \div and $=$.

I'm Bored Box

Lots of countries in Africa have a tradition of making masks for special celebrations. Can you make a mask of your own? You could make a cheerful or scary mask, or use an animal as your inspiration.

Please send in the children's school Bibles next week. We will be using them in our Easter lessons and activities.

Sports Relief!

Well done to all the Year Two children who (literally) threw themselves into their swimming challenges! They have had fun today doing lots of relay type races too!

Please send in your sponsorship forms and money by next Friday 28th March.

International Afternoon

We had a wonderful time on Wednesday with the international students from Guildford College.

The children had their names written in Arabic, Chinese, Japanese and Korean! They tasted interesting nibbles from Libya, Saudi Arabia, Italy and Spain. They practised their chopstick skills with a sweetie race and learned vocabulary for 'Good Morning', 'Hello' and 'Goodbye'.
