

Maths

This week we have been working on sequencing numbers with different intervals, carrying on the pattern, and learning about division by sharing a number into equal groups e.g. 18 sweets shared between 6 children is 3 each. $18 \div 6 = 3$.

You could practise division at home with this link: <http://www.topmarks.co.uk/Flash.aspx?f=sharingv2>

English

In English children have been writing their own adventure story, inspired by Salvatore Rubbino's book 'A Walk in New York'. They have also been practising using 'ly' adverb words in their sentences. e.g. "I woke suddenly with a start, my alarm clock loudly ringing. I ignored it, and turned over slowly in bed."

Friday 20th March 2015

Things to Remember

Easter Service

Wednesday 25th March 1:30pm —Joint Celebration at Holy Trinity Church. We need some parent helpers from 1:00pm to help walk children to the church and back. Unfortunately there will be limited space for parents to stay at the church, as it is a whole school celebration with the juniors. Children will be picked up from school as usual.

Swimming—as usual.

Bibles—We hope you enjoy looking at the bibles with your child over the weekend. Please could you send them back to school on Monday as we will need them for our Easter lessons and activities.

Friday 27th March—End of Term.

Please note that there will be an early pick up on Friday, at 1:30pm.

Challenge Corner

Pretend you are a journalist. Write your own newspaper article telling us about something you are really interested in. Include pictures, facts, quotes and exciting words to share your passion with your classmates.
