

Year One

Beech and Oak Class

9th March 2018

Maths

This week we have recapped telling the time and shapes. We were very impressed how much your children knew about 3D shapes! We have discussed everyday 3D shapes as well as their properties. We have also been thinking about duration and how long each activity throughout our school day lasts.

Writing

We have been enjoying learning and adapting the story Peter and the Wolf during our English lessons this week. We had a lot of fun replacing the main character with ourselves as well as talking about how to write an engaging beginning, middle and end. We will be continuing these during the start of next week, so please feel free to encourage your child to retell and improve their story ideas over the weekend.

Wild Place

We had a lot of fun searching for signs of dragons at the Wild Place. It was wonderful to hear of all the imaginative discoveries everyone found. Claw marks were found on trees alongside teeth and even dragon skin!

PG film

We are hoping to show the film How to Train Your Dragon at the end of term. Our topic this term has been based on dragons and we will also be writing instructions to train dragons next week so this would be a nice film to end the topic with. It has a PG certificate and if you would prefer your child does not watch it then we will have another film and activities ongoing in the other class-room. Please let your child's teacher know if you would prefer the latter option.

Have a lovely weekend,

Georgie and Claire
