

Just to let you know...

Maths

Fractions, decimals and percentages have been on the menu this week. The children have been working out fractions of amount and comparing fractions. We have also been looking at national budgets with one eye on the general election. We asked the children to consider what fraction of the national budget they would spend on each key policy.

Brenscombe Letters

We would be grateful if you could bring in letters you would like us to give your children at Brenscombe. We are taking these in prior to going and will hand out when we are at the centre. Please give these to your class teacher ASAP. Also look out for letters coming home with up-to-date information regarding the trip.

Literacy

What is your favourite Castle? Motte and Bailey? Concentric or Stone Keep? I am a Motte and Bailey person myself. Taken from the French who were looking for new ways to keep out northern invaders it consists of an outer fence and a large look out on top of the Motte.

The children have been producing factual pieces about their chosen castles. They have researched using ICT and our library to find a range of information.

Brenscombe Notice

Please remember to turn in your Piriton permission slips. These are very important, especially if your child suffers from hay fever.

Spellings

NO SPELLINGS THIS WEEK
DUE TO BRENSCOMBE FARM

Election Day at HT
Everyone got their vote
on Thursday!
