

## YEAR 2 NEWS

### Natural History Museum

We are very excited about our trip on Tuesday 14th June. Please ensure you return the **permission slip and payment before half term.**

We now have plenty of helpers, so thank you :)

## Maths Week

We have been revisiting all of the Maths topics this week, practising all of your maths skills such as doubling, halving, time, money, estimating and mixed operation number calculations.

<http://www.ictgames.com/numberFacts> is a great website to use to reinforce what we have been doing in class, particularly the game **Number Bingo**.

## Dino Fun Week!

Next week we will be enjoying a lot of Dinosaur Topic based art activities. The children will be making things in preparation for our Dinosaur Museum later in the summer. The museum will be open on the morning of 8th July—please put the date in the diary.

## English

This week we have been working on our reading comprehension skills, particularly checking that our answers are full sentences. We have also become authors, writing new adventures for Danny and the Dinosaur to go on. The children have had some super ideas, and have written and illustrated their stories beautifully!

## Good Mornings!

We are really working on building the children's independence in readiness for Junior School. From Monday 16th May we would like to ask all parents to bring their child only as far as front door of school, and then let them make their own way to the classroom from there. We're sure they'll be great at doing this. If you have messages to pass to teachers, please send a quick email, and we can arrange a time to chat. Alternatively you could speak to Ruth or whoever is on the door that morning. Many thanks for your support.
