

Maths

This week we have been looking at 2d shapes. In pairs, the children played a game where they had to guess the shape from their partner's description.

We revised the names of the shapes and described them using mathematical language .

Topic Fun

We hope you had a lovely half term and enjoyed the 'Great Fire of Pewley' on Monday. The children have really enjoyed this topic and are looking forward to their trip to St Paul's next Friday.

This week have been finding out about Autumn and seasonal changes. We found some coloured leaves in the school grounds and used a ruler to measure twigs ; making them into a beautiful mobile.

Things to Remember.

St Pauls' Trip on Friday 14th November.

Children should wear smart school uniform and bring a packed lunch, snacks and drink in a backpack. They will need a coat but NOT hats/scarves/gloves, book bags or JTLYK books!

We plan to be getting on the coaches at 9a.m. so children should arrive at 8.40 promptly please. We will have a Great Fire of London workshop and climb the Dome. Then we are due back at school at 4 pm.

Parent Consultations

Look out for your appointment letter which came home on Thursday. We are looking forward to meeting you again.

English

We have been creating jigsaw Autumn poems. We listened to Vivaldi's Four Seasons and then looked at images of Autumn, going on to create a class word bank. The children then made up their own poems.

7th November 2014

Reading

Thank you for helping your child with their reading challenges. We are encouraging the children to develop their higher order comprehension skills with books that they can comfortably read and enjoy.

Phonics / Spellings!

This weeks sound family is 'oa.' Look out for your child's phonics book in their bag. There are some suggested activities in the front cover. Phonics books will be needed every Friday for a new list.
