

Just to let you know...

Marvellous Materials

We have had a lot of fun finding out which materials go through reversible and irreversible changes when heated. Children carried out an investigation where they heated a range of substances and carried out two observations. First before the object had been heated and then after cooling. Why not ask your child about the experiment and which materials showed a change which was reversible?

In the wk beginning 17th Nov we will be investigating 'filtration' and would be grateful if you could send in any 2 litre plastics bottles ! Thank you.

Dear Parents, we hope you had a fantastic half term break, it's been a brilliant first week back! We look forward to seeing you at the parent consultations next week. Have a lovely weekend. Best wishes,
Jess, Sheila and Julia.
STOP PRESS; School photographer will be in school on **TUES 11th Nov** for individual photos!

Maths

This week we have been learning to multiply and divide by 10 and 100. Once they had grasped the concept some children were able to apply their skills to thousands and tens of thousands. Don't forget...

<http://www.mymaths.co.uk/>
Login: pewley **Password:** squared

We have also set a **mathletics** challenge for the week.

<http://www.mathletics.co.uk/>
Please can you continue to practise times tables with your child at home.

In English we are reading George's Marvellous Medicine. We have been imagining conversations between George and his evil Granny and practising our speech punctuation to record a conversation. Perhaps your children will tell you why they think Grandma is so nasty!

On Thursday we had an extra assembly where Richard explained the causes of WW1 and the lessons we can learn from the conflict.

The four values we have adopted are Fairness, Respect, Empathy, Tolerance
With these values we need not 'FRET'.

Science day and trip to the Museum

Year 4 enjoyed their trip to the Science Museum, they particularly loved the 'Launch Pad' where they were able to have hands on experience with many different investigations. The children also attend a science show where they learnt about explosives and the forces and energy of 'Rocket Science'!
