

Just To Let You Know...

Willow & Hazel

Thank you so much for bringing in your recycling- do continue. The children love junk modelling!

Phonics
Hazel will be learning v, ng and w.
Willow will be learning oo/OO, y and x
Do have a look at the sounds in the back of the JTLYK books with your children.
Can they show you the action or sing you the song linked with the sound?
They love playing i-spy and looking for the letters in their reading books too.

Christmas Play
7-10th December
Look out for details in the school newsletter over the next few weeks. Year 2 perform the majority of the play. Reception will be split into 2 groups and will either be part of a song or a dance scene.
Please check your child's book bag for a letter about their group and costume.

Thank you to all who came for Parents' Evening. It was lovely to share your children's progress with you. We are really pleased with how well they have settled!

Body LEAP
The children are enjoying learning about their bodies. Last week everyone took part in a carousel of activities and learnt about how different parts of the body work. Both classrooms have set up new role play areas. Willow have an opticians and Hazel have a science lab. We've also been reading the story 'Funny Bones' by Janet and Allan Ahlberg and made skeleton related pictures and crafts.
On Tuesday Frances brought in a her puppies Bracken and Bramble and Debbie, (Luca's Mum) brought in Bumble. We had fantastic discussions about the similarities and differences between our bodies and the dog's bodies.
