

JTYK YEAR ONE

Friday 6th November 2015

Look out for our Toy Museum letter!

Oak Class visiting on 17th November and Beech Class on 18th.

Parent Consultation letters have come home too - let us know if you haven't received yours.

Dear Parents,

We hope you had a lovely and restful half term. The children came in bright eyed and bushy tailed with their lovely toys on Monday and had a wonderful day talking about them, developing a word bank of exciting adjectives and writing poems.

We have introduced our new topic "Bears" and asked the children what they would like to find out about them. The details are on the topic web which your child has brought home and also on the school website.

We have put up a new 'Wild Place' sign up sheet in the corridor and we need helpers for our Tuesday afternoon visits for the rest of term please.

Sarah and Sheena :)

Sound of the Week

These are brought home on a THURSDAY and should be returned on TUESDAY. These are a brilliant resource to help your child with phonics skills. Please complete the tasks each week. Good luck and please pop in to see us if you have any questions.

Maths Focus

This week we have started to learn how to count up in 1's on a Number Line.

At home make your own Number Line with chalk outside. Stand on 2 and make 5 jumps forward - which number did you land on? Now jump backwards 4 from that number, where did you land this time?

A question to ask your child ...

Show me how you add 2 numbers using a number line ...

Number Line 0-20

Gymnastics

The children have been learning lots of gymnastic shapes ranging from star, straight, pike, straddle, tuck, box, front and back support, dish and arch. They have begun to make their own sequences to show their friends!
