

Year One

Beech and Oak

29th November 2019

We have had a curious week wondering where our crayons had disappeared to! We read letters from each crayon explaining why they had left. We then met a very upset Pink Crayon. Eventually we managed to persuade Pink Crayon to come back by writing encouraging and persuasive letters.

Next week is our trip to the Guildford Museum. We are all looking forward to this! Please remember to send your child in with a packed lunch and water bottle in a small rucksack. If you are yet to hand in the consent form with payment then please do this by next week. Beech are visiting on Monday 2nd December and Oak will be going on Wednesday 4th December.

By now you will have received a letter about your child's costume for the Christmas production. Please try to avoid feeling the need to buy items for the costume. We have tried to think of clothing and accessories your child may already own. Please bring these costumes in by Wednesday 4th of December in a named bag.

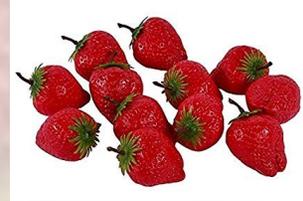

Have a wonderful weekend,
Hayley and Georgie

Maths

This week we have been talking about subtraction. We learnt about the sign (-) and used this when finding how many are left after taking away and breaking apart a whole amount. Please have a go at writing the subtraction number sentences and finding the answer for the following word problems.

Hayley had 10 cakes but Georgie ate 4 of them. How many Cakes does Hayley have left now?

Beccy bought 12 strawberries but 5 of them were rotten. How many strawberries did she have left to eat?

Besom Christmas Hampers

We are pleased to be supporting the Besom charity again this year. We have put up a shopping list and information sheet of the types of items you can donate for the hampers outside each classroom. This is to ensure the hampers have a variety of items and avoid duplication. Please tick off what you would like to donate.
