

Year One Beech and Oak 11th October 2013

Christmas Cards

Look out for your child's Christmas card design in their book bags and make sure they are returned **soon** if you want to order some.

Maths Focus

This week we have been learning about money. We have sorted coins and used 1p and £1 coins to buy toys in our play shop. Some of us had a go at making totals to 10p, 20p, 50p and even £1 using different coins.

Can you have a go at making a shop at home? What can you buy in your shop? Can you sell fruit and vegetables or toys and teddies? Maybe you can visit a real shop and spend a bit of money using different coins!

Kind request...!

Thanks to everyone who has been reminding their children that they mustn't bring toys, cards or Lego to school. It would be such a shame if their toy got lost or broken and for this reason we have a school rule that doesn't allow toys at Pewley.

Dear Parents,

Next week, the new Reception children are going to be coming in to visit us so we can show them how grown up we are in Year One. We spent this week getting ready for their visit by writing invitations to them and making little books all about us. We are so excited to show them our classroom and tell them all about us.

Emily and Hannah :)

Sound of the Week!

We have had some lovely feedback about the sound of the week activities. We hope you are all having fun with the challenges. It really does make a difference in the children's reading and writing both in terms of progress and confidence. If you have a go at some of the challenges but your child hasn't recorded anything that's fine. You can always write a little note in the books to let us know how hard they have been working. We know how practical our activities are and we are always keen to recognise the time that you and your children have spent practising.
