

HOMWORK ACTIVITIES

Following learning the suffix spelling pattern last week, we have given the children spellings to learn over the weekend to consolidate this. They will be tested next week.

We are sending home their maths books this week so you can see what they have done so far. In these there will be a sheet of problems for them to complete over the weekend and bring back in on **MONDAY!**

Any unfinished work will be sent home to finish.

DICTIONARY PLEA

If you have any spare dictionaries or thesaurus's at home we would be hugely grateful if you could bring them up to year six. We are really encouraging the children to refer to both of these in class to help to improve spelling and vocabulary.

BIKEABILITY GROUP 4

STARTS MONDAY!

REMEMBER IT IS FLUFY FRIDAY ON THE 18TH. PLEASE BRING £1.

The children have completed their Amazon Menus and they sound scrummy! We have asked the children to create their neat version either on the computer or handwritten ready to bring in before half term. We are giving them a lot of time to ensure that they produce something special that they can be proud of!

LITERACY

Next week we will be looking at Cereal adverts. In preparation for this please listen out for any radio adverts and start to think of the language they use. Please also bring in any empty cereal packets that you have at home so that we can use them when we look at nets in maths.

Best wishes
Clare, Mary, Sarah, Cheryl and Helen

MATHS

In maths this week, the children have been revising inequality signs (<, >) learning how to calculate missing numbers and applying their knowledge to word problems where we have to use inverse operations.

We have had fun investigating novel ways to teach our number system to our year 3 buddies which really helped us to improve our understanding!

We have added another activity on Mathletics for the children to attempt.
