

Just to let you know...

Dear Parents,

Thank you so much to all of you who have sent back your consent letters regarding the Science Museum, please keep sending them in.

Also, if you have any 2 litre plastic bottles that you no longer want, we would appreciate it greatly if you could send them in, so we can use them for our science investigations.

Have a lovely weekend.
Best wishes,
Julia, Jess and Sheila.

Science

Year 4 have taken part in a material hunt around school. They sorted a variety of materials by their properties, using a Venn Diagram.

Then, they did some research; identified what different materials were used for, when they were first produced and where they would fit on a timeline.

There will be no spellings to learn over half term. Have a go at all the spellings you have learnt this half term.

Do keep up the tables practice, to keep improving your challenge score!

English

Something strange and mysterious has landed in the Holy Trinity woods. Large, brightly coloured ice eggs have been found! The children discovered them on Tuesday morning and have spent the week pondering where they may have come from.

We decided that some of their ideas would make great stories so we have constructed story plans and written our openings; ready to continue them next week! We have been using fronted adverbials to make our writing more interesting, why not ask your child to tell you about their story.

Maths

We have been looking at negative numbers and using a number line to work out differences, counting back through zero. Can your child tell you where we use this skill in real life?

We have also learnt how to use these symbols: greater than, less than and equal to.

$$100 > 15 \quad 10 + 5 = 7 + 8$$

Homework

We have sent your child home with a Pupil Profile sheet for you to complete together over the weekend. This is a great way of us finding out more about your child, what their interests are, what is important to them and how they learn best.

Just to remind you that Reading Journals and homework are due on a Monday (and may be kept overnight).
