# Year One Beech and Oak 10th October 2014

### **House Poetry Event**

How proud we all are of your children! We had so much fun hearing all the lovely poems beautifully recited.

# **Maths Focus**

This week we have been learning about: tall, taller, tallest, short, shorter, shortest. We have also had lots of fun measuring around school with non-standard units such as Unifix, plastic dinosaurs, glue sticks and teddies.

At home can you find things that are taller than you and smaller than you? Can you measure the length of your bed using pencils? How many does it measure? Remember to count carefully!

Thank you to the lovely toddler brothers and sisters who came to visit us on Wednesday! We really enjoyed asking your mummies lots of questions.

### Reminders

### Girls Changing for PE

Just a little request! Could you practise taking off and putting on tights with your daughter. As the cold weather approaches they need to be able to change by themselves. Thank you x

### Sound of the Week Books

Well done to everyone who has completed their activities in their big green books. Please return them on Tuesdays.

## **Library Books**

Thursday morning is library for the children so please return books so they can bring a new one home.

Dear Parents,

# Wisley Trip on Tuesday!

We are very excited about our trip on Tuesday. Children should bring a packed lunch in a small back pack. They will need to wear school jumpers and joggers with trainers/ comfortable shoes and a weather appropriate coat. We will be leaving on our coaches at 9.15 and returning in time for normal school home time.

On Thursday we will be hosting a party for our friends in Reception. We are looking forward to sharing our work and chatting about what we have found out about growing up!

**Emily and Sheena:**)
