

Year One
JTLYK
Beech and Oak
28th September 2018

In English this week, we enjoyed reading Super Daisy and The Peril of Planet Pea and writing about which food we would rather not eat with peas. We had examples of peas with chocolate cake, ice cream and even jelly! We continue to work on our curly school writing and this week we practised 'o'.

The children loved visiting the Wild Place this week. We continued our learning from science and used our senses to describe what we could hear, smell, feel, see and taste.

Thank you to those of you who have contributed to the cooking, art and design funds for our year group. If you are still intending to provide a voluntary contribution then just hand it in to your child's class teacher. Thank you.

Claire and Georgie

Reminders

We are having our first celebration afternoon on the 16th of October from 2pm. If you cannot make this date but would like to see your child's books then please chat to the class teacher about coming in at another time.

Maths

We have talked a lot about representing numbers and amounts using objects and drawing. This has helped us understand that a number, including 0, is worth an amount. To help with future problem solving we have also practised using quick drawings or symbols to represent an amount. Have a go at completing these tables. We have also used ten frames to see how many different ways we can make amounts between 1-10. Have a go at using the ten frame to make the number below.
