Just to let you know...

This Week's Homework

Maths Facts: – types of numbers – due in Monday 19th

Reading task: due in Wednesday 21st

SPAG Worksheet: due in Thursday 15th

Spelling rule: changing 'y to i' – tested on Friday 23rd

Maths worksheet: factors – due in Friday 16th

Adaptation Project

The children have been asked to complete an animal adaptation project for homework. This is due in on the 10th December. As we have given the children such a long time, we expect the work to be high quality and creatively presented. We have sent a project brief home.

Mathematics

This week we started by focusing on the different types of number. Can your child define the following terms?

Factor

Multiple

Consecutive number

Prime number

Square number

Cube number

In the second half of the week we started to look at fractions of shape and comparing fractions.. Which one of the shapes below represents $\frac{3}{5}$? Why do the others not?
