

Just to let you know...

Year 1, Beech and Oak 9.5.14

Dear Parents,

This week we shared a lovely book all about sunflowers and planted our very own sunflower seeds which will hopefully grow into tall, beautiful sunflowers! We will start the year 1 sunflower challenge at school and then send them home when they have started to grow. Please look out for these precious little seedlings and let us know how they get on.

Hannah, Emily and Jacob.

Invitation!

You are invited to an exciting garden party which will take place on Thursday 22nd May at 2:15pm. Look out for your invitation in your child's book bag.

Phonics Focus

Please check your sound of the week book for this week's challenge. Phonics is a big focus at school and we really want all the children to know all their sounds well by the end of year one. Any extra practise at home would help the children develop in phonics.

Maths Focus

This week we have been revisiting addition and subtraction and the resources we can use to find out the answer. We used 100 squares, number lines, counters and mental methods. We have given each child a 100 square and a number line. See if you can use these resources to solve word and number problems to 10, 20 or even 100!
