

Just to let you know...

Maths

Next week we are going to be working out what '1 more and 1 less than a number is.' We will be doing this in a practical way using bean bags, bead strings and other objects as well as looking on a number line to find out what the answer is.

Laminating Help

We have resource packs that need laminating ready for phonics next term. If you are willing and able to come in and help at a time that suits you, please come and speak to us.

Many thanks.

Cooking Corner

This past week we have made little bread roll hedgehogs. Next week we plan to make animal shaped cookies.

Phonics

This week Willow class is learning the sounds z, ee, or and ie
Hazel class is learning j, ai and oa.
Thank you for your help with sticking in sounds on Friday mornings!

This Wednesday we won't be going to the Wild Place. Instead, we are looking forward to having some students from the University of Surrey to plant bulbs with the children in the front playground.

Any bulb donations would be greatly received.
(Below is a photo from last year.)

Walk on the Wildside

We are very excited to be having a visit from Graham Cornick from 'Hydestile Resident Animals' as part of our Animal LEAP on Thursday 28th November.

We have sent a letter home. Please reply as soon as you can and come and see us if you need another copy.
