

## Maths Focus

This week we have been revisiting time, reading o'clock and half past on a clock. Some of us even had a go at reading quarter past and quarter to. Have a go at making a clock with moving hands (using a split pin) and making different times.

Just to let you know...  
Year One  
26.4.13

Dear parents,

We have had a lovely week in the sunshine and have been outside for lots of our activities as well as doing a bit of gardening. We enjoyed watching the cress growing (or not, in the case of Oak class as the water dried up over the weekend!!) and Gardener George sent us some beans to grow. The children have absolutely loved the sewing and have completely exceeded our expectations! Some children have even done clever patterns and pictures! More planting to come next week!

Love Emily, Hannah, Sam and Misha xxx

## 10 point writing challenge!

We have introduced the 10 point writing challenge this week. The children have to win 10 points for every sentence they write. The points are for;

1. Capital letters
2. Writing on the lines
3. Finger spaces
4. Full stops
5. Curly letters
6. Sounding out
7. Spelling tricky words
8. Using wow words
9. Tall, short and tails (handwriting)
10. Check it makes sense

The children are very excited to get 10 points for their sentences. See if they can get 10 points if they want to practise writing at home!
