

HOMEWORK ACTIVITIES

We have continued our work on using evocative language by asking the children to write a letter home from an adventure in the Amazon. Most of them will now need to produce a neat version for their topic books (either typed or handwritten).

This week's spelling pattern is adding a prefix to words and we would like the children to investigate two more prefixes at home (dis-, anti-, trans-, pre- etc)

We have also set another mathematics activity—please encourage your child to complete it!

Just to let you know...

BIKEABILITY GROUP 2
Starts Monday!

The children have been very creative this week, designing factfiles about the Amazon-rainforest. We have found out where in the world the rainforests are and where it's desert, investigated unique animals and plant adaptations and researched key statistics.

Please could you sign in your child's reading journal when they've read three times during the week. Thanks so much to those parents who joined us for the reading carousel introduction—we start on Wednesday!

Dear Parents,
Next week we will be carrying out a science investigation looking at materials suitable for a rainforest rucksack—please send in spare fabric, plastic sheeting, old t-shirts etc
Best wishes
Clare, Mary, Sarah, Cheryl and Helen

In maths this week, the children have been spotting patterns and sequences and extended ascending and descending number series. We have had fun investigating the patterns within Pascal's triangle. Take a look—

Keep up the times table practice too!
