Cook, serve, clear up 5:30—7:00 x helpers

Friday 6th:
Breakfast 7:15—9:00 x 3 helpers
Breaking camp 8:00—10:30

MATHS

In Maths this week, Year 4 have been looking at a variety of graphs and discussing how information can be presented in a range of ways. Pupils have been answering questions by analysing data in graphs and tables.

Have a go at the Mathletics task for this week.
http://www.mathletics.co.uk/

Dear Parents,

Many thanks to those of you who have already signed up to help us at Bentley Copse. We still need a few slots filled so please come and sign up or let your child's class teacher know if you can join us!

Homework: Maths Data Handling
Please make sure you child completes the data analysis homework by Monday 12th May.

Have a great weekend.

Mel, Sheila and Julia.

Germination

The children have been looking at The process of germination and have set up seed investigations to observe what the optimum factors are needed for a bean to grow. We have also spent time discussing why a 'fair test' is Important. Why not ask your child to tell you about the variable they have chosen to change in their test.

ENGLISH

This week the children have been given the task of choosing and researching a plant species. The focus has been to use a range of sources (including non-fiction texts and i-Pads) to research and collate relevant information. Pupils have then used the gathered facts to present their findings in the form of a fact-file.

Why not ask your child about their chosen plant and any interesting facts they found out?
