

# Just to let you know...

## SCIENCE

We have had lots of fun making our own filters to clean dirty water. We have asked the children to think about why the investigation worked and to think of different materials they could use to create a filter.

The children will be testing their theories after half term!

Have a well-deserved Half Term break!

Best wishes,  
Mel, Nick and Julia.

**Pancake Races**  
Year 4 were brilliant watching, cheering and participating in the Guildford High Street pancake races. Thank you so much to all the parents who were able to come along.

There will be no spellings to learn over half term. Have a go at all the spellings you have learnt this half term.

Do keep up the tables practise, to keep improving your challenge score!

## Story share with Year 4

After spending the morning editing Ice Egg stories, Year 4 had the opportunity to story share with Year 1 visitors from Pewley. It was a fantastic and memorable afternoon for all!

## Maths

We have been looking at data in the form of graphs. The children have had to analyse the information by answering and setting questions.

Year 4 spent some time this week reflecting on their work throughout the half term and thinking about specific areas of Maths they would like to work on more.

Encourage your child to have a go at the mathematics tasks over half term.
