beads
crosses
sewing
chariot
enemies

What an exciting start to our week! On Tuesday morning, a body was discovered in the school grounds. The Year 4 'forensic' team was called in and the children were enlisted to help interpret the evidence and solve the mystery. How did the body get there and what happened in his last living moments?

Please continue to hear your child read and comment in their reading record.
Thanks,
Julia, Nick and Mel.

Fluffy
Next Fluffy is Friday 19th October.
Remember your £1! Please note there is also no group reading on this Friday.

Maths

This week in maths, we have been working hard on mental calculations. We had a go at a quick fire test, where the children had only five seconds to answer questions.
We have also been using logic and reasoning to solve a murder mystery; devising our very own and testing our partners.
